October 10, 2025

Aloha Kakou,

Brothers and sisters, federal employees are currently enduring the repercussions of a political impasse that has led to a government shutdown. These events will undoubtedly have significant and lasting consequences. The duration of this shutdown and the timeline for financial relief remain uncertain.

In light of these circumstances, your union has taken proactive measures. We are pleased to inform you that, in addition to other relief programs currently being developed, we have approved the suspension of membership dues and dental premiums for the duration of the shutdown for those who have continued their membership with us. You will continue to retain all benefits associated with your membership and your dental coverage for those months only. We sincerely appreciate your unwavering support, and your union is committed to supporting our greatest asset—our members—through all available means.

If you have any questions, please contact me either by phone or email.

Mahalo and thank you for your support of keeping Government open without pay at this time. The public really appreciates you!

Ian Jarrett
Unit 2 Business Representative
